seats, Drive to Survive, and much
more.

94 Fire Agencies

in California + Nevada
Depend on FAIRA

Fire Agencies Insurance Risk Authority (FAIRA) is a Public Agency that was created and managed by Fire District Chiefs and Fire District Directors. The FAIRA Joint Powers Authority is owned entirely by participating Fire Protection Districts and Agencies, and functions solely for their benefit.

Formed in 1988, FAIRA addressed the Risk Management needs of fire agencies that were abandoned by traditional insurance companies in the hard market of the 1980s. With 30+ years of service to our members, FAIRA is a mature, experienced and financially secure insurance pool of public agencies.

FAIRA provides comprehensive property and liability insurance coverage, along with a wide range of Risk Management services:

- Free Trainings through Gallagher Core 360
- Risk Management and Insurance Manuals
- Training and Education Materials
- Free Access to Law Firm for EPLI Questions
- Contract Review
- Loss Control
- Experienced Specialists in Fire Service Claims Adjusting

FAIRA continually evaluates the evolving challenges of fire agencies and local government, seeking solutions in anticipation of member needs, as well as providing comprehensive, competitively priced insurance coverage and Risk Management support to our members.
